Flexible and versatile, a Zippered Entrance Wall helps make a **Tea Room** a truly "all season" structure – adjusting at a moment's notice to offer protection from wind, rain or cooler temperatures; to create more privacy or a greater sense of freedom and openness; and to change the look, feeling, ambiance or view.

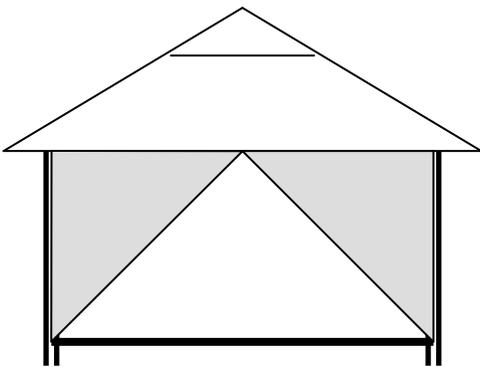

To give you a better idea of the many possibilities, here are a few examples of how a Zippered Entrance Wall can be configured on a **Tea Room**:

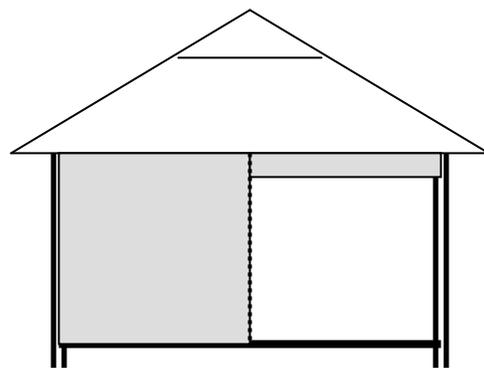

Both Sides Down – Zipped Together

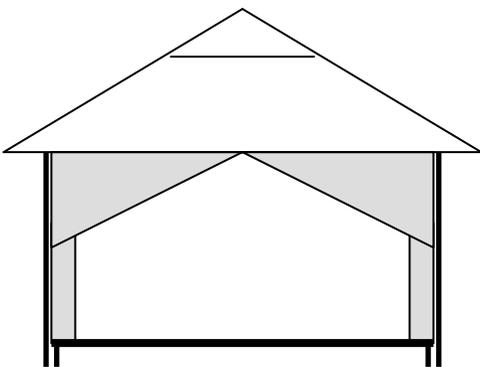

One Side Down, One Side Pinned Back at the Corner

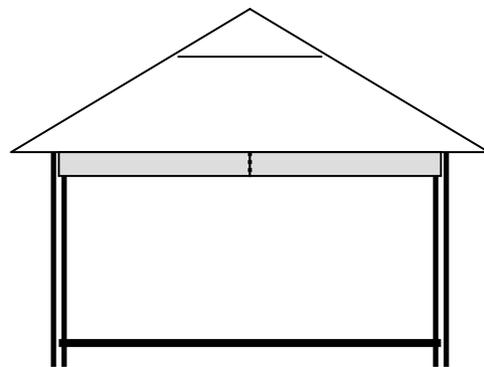

Both Sides Pinned Back at the Corners

One Side Down, One Side Rolled Up

Both Sides Tied Back

Both Sides Rolled Up

Window Walls on a **Tea Room** protect against wind and temperature, all while letting in the light and view – and with the optional Zipout Window, the clear vinyl opens and closes with a touch to let in fresh air through a Screen.

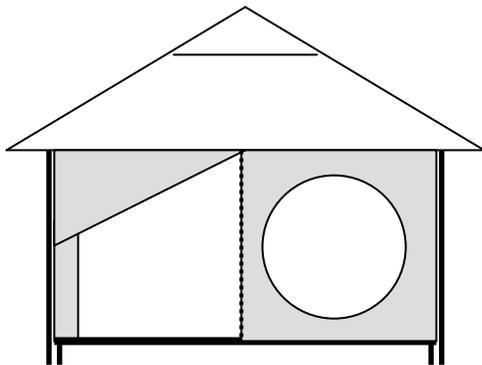

Full-size Screen Walls can come Plain (solid) or with a Zippered Entrance, and can be hung alone or on the same side as any regular wall – allowing the **Tea Room** to go easily from an open pavilion, to a screened in *lanai*, to a cozy "cabin," all within seconds, all without tools – giving you the maximum in flexibility, responsiveness and comfort.

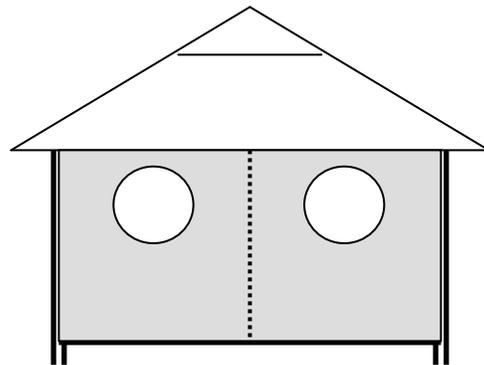

"Moon Window" Wall – plain
or with Zipout Window over Screen

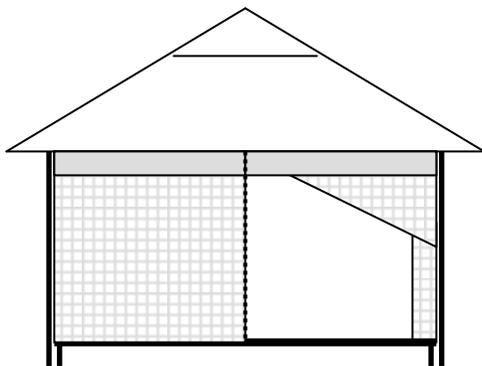

"Picture Window" Wall – plain
or with Zipout Window over Screen

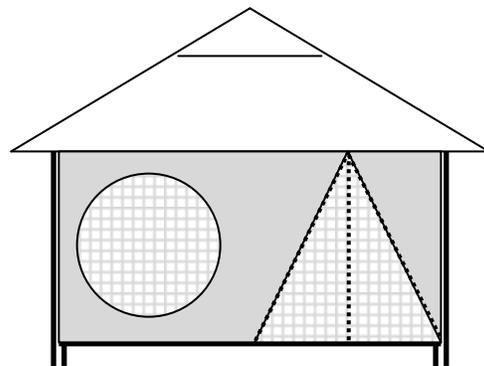

Compound Wall – "Moon Window"
with center Zippered Entrance

Compound Wall – "Porthole Windows"
with center Zippered Entrance
